Career Objective

Power BI Developer with hands-on, end-to-end experience in building enterprise dashboards – from raw data extraction and transformation to publishing and administering reporting on **Power BI Service**. Proficient in **DAX**, **Power Query**, **Row Level Security (RLS)**, and **data modeling**. Seeking a challenging role in a growth-oriented organization where I can contribute to operational excellence, drive data-driven decision-making, and take ownership of impactful analytics initiatives.

Skills

Programming & Querying: SQL, Python

BI & Analytics: Power BI (Desktop & Service), Tableau, Advanced Excel

Data Processing: ETL, Power Query, Data Cleaning, Data Transformation

Data Modeling: Star Schema, Snowflake Schema, Dimensional Modeling

Tools & Platforms: Power Automate, Microsoft Fabric, VBA

Professional Experience

Utkarsh India Limited

May 2026 – Present

Data Analyst | Steel & Iron Manufacturing (Kolkata)

- Manage and maintain the organization's **Employee Database**, ensuring data accuracy and accessibility.
- Leading the **Employee Feedback & HOD Review Monitoring System** – collecting employee satisfaction feedback at 1, 3, and 6-month intervals post-joining, alongside comparative HOD feedback, enabling data-driven retention and management decisions.
- Developing an **Employee Attrition Dashboard** to track and analyze workforce attrition trends across departments.
- Create a weekly **MIS & MOM** single-page dashboard consolidating reports submitted by all department HODs.
- Built **VBA-based Userforms** for process automation, including a Breakdown Analysis Userform.

Bhauram Jodhraj Pvt Ltd

May 2025 – Feb 2026

Power BI Developer | Tea Manufacturing

- Developed a week-wise **Auction Sales Dashboard** in Power BI analyzing buyer-wise purchase volumes and tea variety-wise margins, enabling data-driven pricing decisions for upcoming auctions.
- Built an **Import/Export Analysis Dashboard** for global market insights, sourcing and integrating data scraped from **Volza**.
- Extracted auction sales data via portal exports (Excel format), performed data cleaning, transformation, and **DAX calculations** before publishing to Power BI Service.
- Served as **Power BI Service Administrator** – managed team members, subscriptions, and app creation/distribution.

Super Smelters Ltd

June 2024 – March 2025

Power BI Developer | Steel Manufacturing (Kolkata)

- Designed and developed a **Sales Analysis Dashboard** in Power BI using raw Excel data, delivering week-wise, month-wise, and yearly sales insights.
- Published dashboards to **Power BI Service**, created an app, and shared it with Managers and HODs for decision-making.

- Implemented **Row Level Security (RLS)** to ensure data access control based on user roles.
- Built a **Vehicle Track & Weigh Dashboard** to monitor weekly vehicle turnaround time and weight discrepancies.
- Utilized **Advanced Excel** for data cleaning and preparation prior to dashboard development.
